

# Prudential Global Equity fund (series 1 & 3)

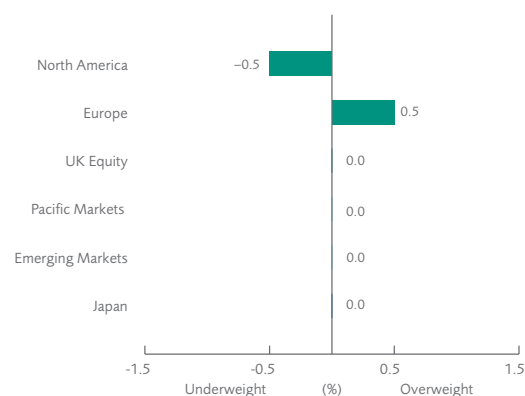

## Fund description

The fund invests in shares of UK and overseas companies. The fund is actively managed with a benchmark of 70% in UK equities and 30% in overseas equities (in the same proportions as the average overseas equity distribution in the CAPS Balanced Pooled fund Survey). The significant numbers of stocks held in each region reflect the prudent approach adopted by this fund. Both active stock selection and asset allocation are used to add value.

## Fund breakdown

## Target Positions vs 70/30 benchmark

All figures are as at 31 March 2008, unless otherwise stated.

## Performance

Past performance of the fund over each of the last 5 years to the end of March

	30/03/2007 to 31/03/2008	31/03/2006 to 30/03/2007	31/03/2005 to 31/03/2006	31/03/2004 to 31/03/2005	31/03/2003 to 31/03/2004
Global Equity fund series 1	-6.9	6.6	29.5	13.1	31.3
Global Equity fund series 3	-6.2	7.6	30.5	13.9	32.3
Benchmark	-5.2	9.1	30.7	13.7	31.9

Source: Prudential. \* annualised

Based on percentage change in unit price. It is important to remember that past performance is no guide to the future. The value of your investment may go down as well as up and the fund value at retirement may be less than the payments you have made.

## Key facts

Underlying fund size	£192m
Underlying sector funds	6
Underlying fund launch date	24/06/1992
Portfolio Manager	Alec Spooner
Benchmark	70% FTSE All-Share Index and 30% regional equity indices
Investment Style	Prudent active
Sedol code (series 1)	702287
Sedol code (series 3)	3168596
Performance Objective	+0.75 – 1.0% per annum over rolling 3 year periods.

## Commentary

The fund's performed slightly better than the average fund in the first quarter.

Our preference for UK and European markets over North America did not make a significant impact. The fund's UK shares were the most successful as stock markets fell, while holdings in emerging markets like Brazil also benefited from the global demand for commodities.

European holdings such as Siemens were unhelpful, while Japanese holdings also proved disappointing.

Share prices are now more attractive in the US and Europe after their recent falls. We slightly prefer the European market, though, as doubts remain about the profitability of many US companies. However, returns in Europe are likely to be volatile as the effects of the "credit crunch" become clearer.

Past performance of the fund to 31 March 2008

	Quarter	1 Year*	3 Years*	5 Years*
Global Equity fund series 1	-9.3	-6.9	8.7	13.8
Global Equity fund series 3	-9.1	-6.2	9.6	14.7
Benchmark	-9.6	-5.2	10.6	15.2

# Prudential Global Equity fund (series 1 & 3)

## Prudential risk rating

### Medium to Higher

#### What type of funds are in this risk category?

These funds offer a diverse geographical spread of equity investment. The funds within this category will have greater overseas exposure and underlying volatility than the "medium" sector.

## What is the risk rating?

- › This risk rating reflects the expected short-term volatility in the fund's value.
- › Risk ratings have been developed by Prudential for this fund. They should not be viewed as generic descriptions across the fund management industry. The ratings are reviewed periodically and may change in the future.
- › There are a variety of investment risks facing a scheme member during pension scheme membership including inflation, changing annuity costs and volatility in fund values. The importance of each type of risk will vary from person to person and from time to time.
- › You should discuss the investment risks and the appropriateness of this risk rating with an investment professional.

## Important information

### Who manages the funds?

All of the series 1 & 3 funds are Prudential funds.

Prudential has delegated the investment management of the funds to M&G Investments.

### How are the fund prices calculated?

The Series 1 funds have both an offer and bid price which typically differs by 5%. Contributions are turned into units at the offer price and units are realised to provide benefits at the bid price.

The Series 3 funds operate on a single swinging price basis. The pricing basis on which units in the fund are transacted is dependent upon the cash flow into/out of the fund. This is also the price that is published.

### What is the dealing cycle?

The Pensions Series 1 fund range is historically priced which means that the unit price is set before money is invested.

M&G Investments has a dealing cycle of T-1. This means that money received on day T buys units at the valuation date price applicable 1 day earlier.

The Pensions Series 3 fund range is forward priced which means that the unit price is set after money is invested.

M&G Investments has a dealing cycle of T+0. This means that money received on day T buys units at the valuation date price applicable at close of business on the same day.

### Who is this factsheet for and what does it do?

This factsheet is intended for the trustees, sponsors, advisers and members of occupational pension schemes using Prudential group pension contracts and Prudential grouped personal pensions and Stakeholder pension contracts. Its purpose is to shed some light on how investment markets and funds have performed over the period and is provided for information only. If you are not familiar with any of the investment terminology included on this factsheet, then please contact an adviser.

### Can I get advice?

This factsheet should not be considered as a financial promotion and any changes to investment arrangements should be discussed with an adviser. It is not our intention to give an indication of how any particular funds will perform in the future. The commentary in this factsheet reflects the general views of the individual fund manager and should not be taken as a recommendation or advice as to how a specific market or fund is likely to perform.

### How are the performance figures calculated?

Performance is measured on an offer price to offer price basis.

For the purposes of comparison with the benchmark we have used unit prices with the closest valuation point to that of the benchmark, taking into consideration the relevant dealing cycle.

To obtain current unit price and performance information for all funds in the Prudential Fund range, simply log on to [www.pru.co.uk/fundprices](http://www.pru.co.uk/fundprices) and choose "Pension Funds" and then select Group Pensions (series 1 or 3).

### Are all of the funds available to me?

Not all of the funds are available for every DC product.

If you are in any doubt as to which funds you are invested in, please contact your pensions department (for scheme members), usual Prudential contact (for trustees and advisers) or refer to the "Key Features Appendix" for the scheme.
